Centuries ngo the foul wickedness of the head of the elder branch of the Cenci family resulted in his daughter's dishoner, his own nurder, the death of his wife, of his eldest con, and the heautiful Beatrice, and tho total continuation of the Cenci estates for the heneit of the family of the Burghese. Her exquisite face, her sorrowillumined eves, that look half without and half within, and far beyond the herror of her life to the mystery of the charge so soon to come upon her—these are familiar to us all from the cepies, while all have seen, of the marvelous portrait of Guido.

they who have rend it have seemed to themselves as those who rend a tale of the far-away past; a story whose beginning, middle, and end were all complete; out whose fearful climax lime had placed his seal—saying. "No more! no more! for ever!" Nevertheless, in that sunny country of old tradition, where noble descent is so clung to and kept unsullied, tho Conci and the Borghese have been born, have married, and died, through uniny generations since. The Cenci have been poor; the Borghese itch with the riches of their fallen rivals. The famous Villa Borghese, at Rome, came to the latter from the estates of the former. The Cenci family have ever since kept in a sort of life claim to the estate by certain legal forms and protests.

The story goes now that the actual male representative of that tragic Genci family, thinking that among other new things coming to Bone may be legal justica, purposes to push his claim vigorously before the proper tribunal there. The dryest court forms will eatch an older of romance is such a trial. And thus a sixth act will be added to the Cenci drama. In it a tea severe judgment of centuries ago may be righted; if will at least bring strangely into the sunlight of the present those eyric legends, that have so long litted in the shade and solemnity of the past.
